# ISHIMWE KEVIN

## NETWORK ENGINEER

## PROFILE

- FULL NAME: ISHIMWE Kevin
- MARTAL STATUS: Single
- DATE OF BIRTH: 2002
- NATIONALITY: Rwandan

## OBJECTIVE

Highly motivated and dedicated Information Technology student in the Department of Network Communication Systems, with outstanding academic performance and a strong passion for making a positive impact on society. I am seeking an opportunity through the Mastercard Foundation Scholars Program to further my education, strengthen my practical skills, and actively contribute to Rwanda’s growth and sustainable development.

## PROFESSIONAL SUMMARY

Dedicated and passionate Bachelor’s student in Information Technology, specializing in Network Communication Systems, expected to graduate in 2027. Having successfully completed the required courses, I am on track to receive an A1 Degree by January 2026. I am also certified in NetOps for Advanced Networking and hold Cisco certifications in Mastering Linux and Introduction to Cybersecurity. Equipped with solid technical skills, strong networking knowledge, and a commitment to continuous learning, I am eager to apply my expertise in practical, real-world IT environments
